

## Tour and Taste

Vermont, home to cheesemakers since the 1800s, has become an acknowledged national leader of the American artisanal cheese renaissance. The three dozen cheesemaking members of the Vermont Cheese Council produce over 150 varieties of small-batch, specialty cheeses and have won literally scores of awards for their efforts.

Today, Vermont cheeses are considered among the best in the world and represent the full-gamut of milks, types and textures. Whether from cow's milk, goat's milk, sheep's milk or even water buffalo milk, you'll find Vermont cheeses from the fresh, soft and spreadable types to those cheeses carefully aged for several years to bring out the full complement of their flavors and nuances.

We invite you to tour our working landscape and taste the extraordinary range and quality of Vermont's finest cheeses! Please call ahead before visiting the farms or visit our cheesemakers at one of the more than two dozen farmer's markets offered throughout Vermont from May to October.

For more information on how you can support the work of Vermont's cheesemakers and join our mailing list, call us at (866) 261-8595, or visit the Vermont Cheese Council website:
